World globalization requires effective exchange of information between state institutions, so it is important to investigate the state of integration processes of public bodies, including transformational effects in government taxation, the role of international cooperation in strengthening the effective, efficient, transparent, accountable tax system and mechanisms for its implementation.

The problem of governance in terms of integration into the global economy was investigated by the known Ukrainian scientists: Y. Kovbasyuk [1] T. Krushelnytska [2] O. Sosnin [3]. The issue of integration of public information systems, information management was described by representatives of Microsoft, as evidenced by a number of publications of A. Danilin [4, 5, 6]. Public management in tax area in time of the globalization of the country is only partly described in the works of scientists, and the issues on management of tax information exchange currently remains on the periphery of scientific research in public administration. The relevance of research is to expand linkages between the national tax system, international cooperation on information tax exchange in the deepening of globalization of the world economy.

In the development of the national tax system, Ukraine has always felt the support of the international community, including international organizations, namely the International Monetary Fund, the World Bank. Technical missions of these organizations carried out as part of the modernization of the State Tax Service through consultative assistance, strategic planning, reforming of the tax authority, providing recommendations on reforms in governance.

International cooperation of the Fiscal Service of Ukraine is developed through collaboration with international organizations: the Organization for Economic Cooperation and Development, Intra-European Organization of Tax Administrations, Coordination Council of the Commonwealth of Independent States. The forms and methods of cooperation of tax authority of the country in world area are: membership in
international organizations; participation in meetings, conferences, seminars, courses; practical trainings of tax service; advices and technical assistance; for information and access to registers, account books and other documents on taxation; consultation and exchange of experience; study and obtaining of the foreign most advanced achievements in the field of governance of taxation.

This article explores the international activities of the national tax authority, in the context of tax information exchange as one of the key areas of fiscal body of the country. Analyzed activity of Ukraine in the Global Forum on transparency and exchange of information for tax purposes, operating under the Organization for Economic Cooperation and Development. The corresponding membership in the Global Forum guarantees assistance to national jurisdictions to effectively apply the international standards of transparency and exchange of information for tax purposes. An important step was the publication of the OECD common global standard for automatic exchange of information about the incomes of taxpayers. Further implementation of international automatic exchange of tax information between tax agencies of countries on a regular basis will be an effective mechanism to combat the shaded economy, that will provide additional revenues to the budget.

It has been proved capacity to create in Ukraine an effective system of governance of taxation by the productive use of information resources, international exchange of information for tax purposes in the way of building a modern professional, democratic, adapted to the global economic environment tax authority up to the best world standards.

Consequently, activation of activity of Ukraine within the international organizations in the tax area will contribute to a more efficient distribution of information on tax legislation of Ukraine, intensifying the process of study and implementation of positive international experience in the field of taxation, will provide new opportunities to combat tax evasion and ensure the improvement of international image of the state.
